REPORT OF PUBLIC HEALTH NURSE—1942

Westport

After one year's participation in the World War, we are beginning to realize the great responsibility of individuals on the home front. Staple commodities may have to be rationed but let us strive against the rationing of right health attitudes and practices. It is our duty to back up our armed forces, and safeguard the future of our civilians at home. How? By carrying on a successful public health program in every community.

During the past year, Westport responded very well to the suggested immunization program planned in honor of Child Health Day. Fifteen children were protected against diphtheria and twenty were protected against smallpox.

The geographical location of Westport places a great responsibility on each individual. The scarcity of physicians as well as the distance from any physician makes it essential that each person be protected against every preventable disease.

Your public health nurse would like to help you plan clinics whereby your children may be protected against

diphtheria and smallpox; your young people and adults protected against typhoid fever; your infants against whooping cough.

Your public health nurse would like to help you plan for child health conferences, where your infants and preschool children would be given a physical examination by a physician.

Your nurse is unable to do this by herself but her efforts, supported by the efforts of a well organized health committee, could accomplish a great deal.

As yet, Westport does not have such a committee but with the cooperation of the Superintendent of Schools, the health officer, interested parents and the nurse, it is hoped that such a committtee will be organized shortly.

LUCY C. HAWKINS,

District Nursing Supervisor.

IN GENERAL

The school has been well managed by Mrs. Carrie Stanley. It has been maintained for thirty-three weeks town year and thirty-five week state school year when it closes in June. This three weeks beyond the minimum requirements equalizes the educational opportunities more fully for the children.

A Health Committee has been formed recently to further the cooperation with the Public Health Nurse. Mrs. Verlie Greenleaf acts as chairman and Mrs. Mary Greenleaf as secretary. Such a committee is most necessary to plan for child health conferences. Parents and interested citizens will I trust lend support to such an important program.

The dental program under the direction of Miss Florence Porter, Dental Hygienist, was conducted February 25, 1942. All of the children had a dental examination

and eleven were given a dental prophylaxis. Class room lessons were taught. On one afternoon parents gathered at the school and the dental hygienist discussed with the parents the value of this program.

The pupils and parents have contributed generously to worthy organizations. The war activities sponsored by the school have received the patriotic support of all. Doubtless the coming year will witness increased activities which the schools will be called upon to participate in.

May I express my appreciation to the School Committee, Town Officials and citizens who have worked together for the best interest of the children.

Respectfully submitted,

STANWOOD C. GILMAN,
Superintendent of Schools.

MRS. MARY GREENLEAF,
Chairman,

MRS. VERLIE GREENLEAF,
MR. BRIAN JEWETT,
Superintending School Committee.
